

The Instant Loopitis Cure

Never get stuck in the loop again...

Step 1

Choose a tune
you LOVE

Step 2

Import it into
your DAW

Step 4

Map the
arrangement
on your guide track by
naming empty midi parts

Step 3

Make an empty
midi track
(this is your
guide track)

Step 5

Delete the
original track

Step 6

Write your parts
within the structure
you've mapped out

Step 8

You now have
a basic arrangement
you can play with!

Step 7

Fill in the blanks
by using the loop
or repeat function
on your parts

(Don't forget to save the guide midi track as a template for future use)

Do you have an ever growing pile of unfinished tracks?

Are you running out of space on your "graveyard" hard drives?
